School Tour Dates 2017

Our school provides a progressive approach to learning offering supportive and exciting curriculum. Small class sizes, engaging teaching and strong community collaboration, in an idyllic setting, provides a living world in which our children play, learn and grow.

In 2017 we began our **dual stream** with two mainstream classes, and a Steiner class composed of Reception to Year 2. This class is taught by two Steiner teachers who work together to meet the developmental phases of both the Kindergarten and Primary programs.
